TO WHOM IT MAY CONCERN

Dear Customer,

this email to make it official that, in order to always guarantee perfect operation of our machines in full compliance with the safety of the user and the regulations in force in the EU, the Vimec company requires that only an authorized and certified dealer can intervene on our models both as regards the installation and the normal maintenance operations.

The intervention of an unauthorized dealer would compromise the guarantee of the machine and, as already seen in the past, would not be able to carry out all the necessary checks on our models to guarantee correct safety and operating performance.

We also have a certified dealer in your country who, thanks to many years of experience, will be able to guarantee you professional and fast support.

Regards.

Vimec srl
